SSLC | *Muslim High School, Kerala State Board*
2018

ACADEMIC PROJECTS

Workers Searching Panel

- A web-based platform enabling users to search and directly contact local service workers (electricians, plumbers, mechanics, etc.) without intermediaries.

- Designed to bridge the gap between service seekers and workers in local communities.

Smart Career Guidance System

- AI/ML-powered web platform to help rural and semi-urban youth identify suitable career paths through skill profiling and psychometric assessments.
- Combines a rule-based expert engine with machine learning models for personalized, explainable career recommendations.
- Built with accessibility and low-cost deployment in mind using Streamlit / lightweight web stack.

Smart Agriculture Management System

- Precision farming platform integrating IoT sensor data, AI-powered crop recommendations, and weather forecasting for small-to-medium-scale farmers.
- Features market intelligence and community collaboration tools to improve agricultural productivity and farmer livelihoods.

INTERNSHIPS

WordPress Content Manager | *PsFiles.com , Packagemockup.com , Xdfiles.com* Part-time • Managed and updated WordPress-based content; maintained web pages and digital assets.

Python Internship | *Safe Technologies*

Short-term

- Hands-on training in Core Python fundamentals and application-level scripting.

Smart Career Guidance System | *Upscale School of Advertising*

Project Internship

- Developed and presented an AI/ML-based career guidance system as internship deliverable.

CERTIFICATIONS & ACHIEVEMENTS

- Flutter Development — Value Added Course, ATS Accent Techno Soft
- Diploma in Web Technology & Multimedia Application (WTMA)
- Certificate of Energy Literacy — Energy Swaraj Foundation
- Network Implementation Appreciation Certificate — Network Bulls
- Best Paper Award Winner — SKASC's ATNEAI 2026 Conference — Recognised for outstanding AI research paper.
